Eight Fragrances.

Fine French Perfumes.

Each fragrance in this collection is a **premium incense stick** — crafted using a centuries-old Bangalore technique in which fragrance compounds, natural resins, and binding agents are blended into a paste and formed onto a bamboo core. The result burns for 45–70 minutes, releasing fragrance in three distinct phases — opening, heart, and base — exactly as a fine perfume does.

This is not a reed diffuser, a candle, or a perfume oil. It is a living fragrance experience — one that changes as it burns, fills a room without overpowering it, and leaves a base trail that lingers for hours after the stick is finished. Positioned at the premium end of the European gift and lifestyle market, comparable in complexity to room-scent products retailing at €18–€32, at a margin structure that rewards independent retail.

AURA

FRESH · LUMINOUS · ETHEREAL

The light that arrives before the sun.

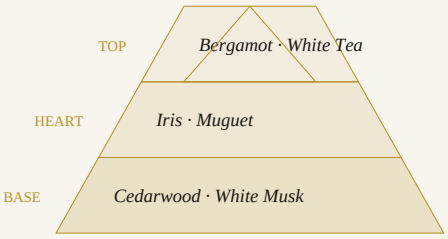

Aura opens with a clean burst of bergamot and white tea — sharp, translucent, almost weightless. A heart of iris and muguet follows, powdery and precise. The dry-down settles into soft cedarwood and a whisper of white musk, leaving a trace so delicate it feels imagined. For spaces that want to feel freshly opened: boutiques, spas, gift shops that prize lightness above all else.

AROMA MOOD

45–55 minutes per stick

HOW TO USE

Light the tip, allow the flame to catch for 5 seconds, then gently blow out. Rest in a holder and allow the room to fill gradually.

JARDIN SECRET

GREEN · VERDANT · ENCHANTED

A garden no map has ever found.

A green, sunlit composition of galbanum, violet leaf, and fig — the smell of crushed stems and warm stone. Jasmine and neroli add depth without sweetness. Vetiver, oakmoss, and amber base — the earth after rain. Perfect for homeware retailers and garden-lifestyle boutiques.

AROMA MOOD

Grounding · Restorative

BURN TIME

50–60 minutes per stick

HOW TO USE

Best near an open window. The green accords deepen as the stick burns — allow 10 minutes for the full character to emerge.

AROMA MOOD

Focusing · Meditative

BURN TIME

Belle Époke opens with cognac, black pepper, and cardamom — grand and slightly heady. Tuberose and osmanthus unfold in the heart with unhurried confidence. Patchouli, oud, and dark resins form a long-lasting, authoritative base. A statement fragrance for prestige gift and room-scent buyers.

AROMA MOOD

Indulgent · Sensory-rich

Foraged at dusk. Kept as a secret.

Artemisia, blackcurrant bud, and fern open where cultivation ends and wilderness begins. Wild geranium and clary sage follow — medicinal and beautiful. Cistus, tonka, and smoked wood close the composition in a way impossible to place but impossible to forget.

AROMA MOOD

Clarifying · Grounding

The quietest fragrance in the collection and its most enduring. Aldehydes, neroli, and bergamot open with classical structure. Rose centifolia and ylang-ylang follow — neither sweet nor sharp. Labdanum, sandalwood, and civet construct a base of extraordinary longevity.

AROMA MOOD

SENSUALITÉ

DEEP · VELVET · INTOXICATING

The warmth of skin, remembered.

Saffron and black rose open with dense, almost edible richness. Jasmine sambac and leather follow — warm and impossibly close. Benzoin, amber, and dark musk form a base that evolves across hours. The fragrance most likely to be repurchased — and the one that stops customers mid-aisle.

AROMA MOOD

Sensual · Deeply relaxing

BURN TIME

60–70 minutes per stick

HOW TO USE

Best in small, warm rooms. Sensualité intensifies with ambient heat — the saffron and leather heart becomes richer as the room temperature rises with the burn.
